MCG

M. CHAD GUYNN
FRONT-END WEB DEVOLPOER/DESIGNER

OBJECTIVE

My objective is to always work hard, to provide quality work and great customer service. I always accomplish my tasks on time. I strive to have a great outlook no matter the circumstances. Life will throw you lemons! Are you going to make lemonade or complain?. Who knows maybe if you are lucky I will sing you a tune!

SKILLS

From an early age I was raised in a furniture design business.Working in the business provided me with an eye for design, color and spacial recognition. Being a family business we would always strive to provide great service and always put the customer first.

While in the furiture industry I devloped skills using:
 PS, AI, IN, HTML, CSS.

While working in technology I have been able to enhance my skills in: JS, jQuery, React, Node.JS, Git, C#, Oracle SQL, MS SQL Server, Python,Jira, OneDesk, Basecamp, Bitbucket, SPREE Commerce, Wordpress, MacOS, Windows. I am also comfortable using Linux.

EXPERIENCE

BEACONEDUCATOR.COM • 2015 - PRESENT
SYSTEM SUPPORT SPECIALIST and FRONT-END DEVELOPER
I worked on building and designing several websites (BeaconEducator.com, flalearns.com). Part of my duties are to help teachers with issues using the website by answering chats, phone calls and help tickets daily. I also manage our social media presence on Facebook, Twitter and LinkedIn until 2019.

SELF-EMPLOYED • FREELANCE • 2008 - PRESENT
In my spare time I build websites and design logos for small businesses.

RAILSDOG.COM • 2012 - 2015
FRONT-END DEVELOPER
I worked remotely with other individuals at my time with RailsDog. I was able to work with other teams and individuals in collaboration to build fantastic websites. A few of the company's we built and maintained websites for were aloha.com, store.chipotle.com, araks.com and many others.
MEDIA RELATIONS
I handled their social media sites such as Twitter, Facebook, Google+, and LinkedIn. I was also in charge of the Blog through Hubspot.com. Until I pursued another career opportunity I was actively creating social media content for RailsDog. Social media included Facebook, Twitter, and Instagram. I utilized programs such as HootSuite to manage the different content. The job also included using programs such as Adobe Photoshop and Illustrator to create graphics.

EDUCATION

GCSC - Current - SOFTWARE DEVELOPMENT
UCF - 1995-1996 - THEATRE
GCSC - 1992-1995 - THEATRE
BAY HIGH SCHOOL - 1989-1992 - DIPLOMA

VOLUNTEER EXPERIENCE OR LEADERSHIP

I have built a couple of temporary websites for charities and local children's sports team. I also volunteered at local Railsbridge. I helped coach individuals in using HTML, CSS.
